JCB Floor Cleaning

PROFESSIONAL
CLEANING SERVICES

Cleaning hardwood and vinyl floors can be a challenging task. Brooms and mops simply move the dirt around, and fall short when it comes to extracting unseen, ground-in dirt. Regular vacuuming and mopping alone cannot remove all of the dirt and debris so it is generally recommended that you get floors professionally cleaned once per year to keep them beautiful.

The JCB Cleaning process uses a high-speed rotary brush and safe commercial brand cleaning solutions to reach tough ground-in dirt. A powerful vacuum extracts both the dirt and the excess cleaning solution.

Our experts follow up with a detailed hand cleaning of hard-to-reach areas.

You may also choose to protect your floor with a JCB Cleaning polish. This durable solution dries fast and provides a protective layer to your floor. It creates a barrier against water while helping your floor resist everyday scratches and scuffs.

Top-of-the-line Products:

JCB Cleaning uses only the best commercial cleaning equipment including ProTeam™ vacuums, Proctor & Gamble™ cleaners, Rubbermaid™ microfiber products and 100% environmentally safe products to keep your home looking its best and your family and pets healthy.

Securely Serving Northeast Ohio:

We utilize state-of-the-art telephone time-tracking systems and software that record when an employee is on the job and for how long. All technicians are employees of JCB Cleaning and have passed background checks. We are fully insured and bonded to ensure that no damage or injury falls back on you.
